HEALTH METRICS CANVAS

Lewrick, M.
Design Thinking and Innovation Metrics
978-1-1198-1515-0
www.design-metrics.com

Quick guide: The canvas helps with a simple structure and key questions for the selection of the most important metrics that feel the pulse of the organization. A good starting point for establishing health metrics is to review the current KPIs to see which ones have the potential for health metrics. In addition, new health be designed and applied based on the current business situation.

More tips & tricks on book page: 194

Health Check Period:

Indicate reporting cycle and level of measuring

Name of Organization/Team Initiative:

Identification of 5-7 Metrics

Impact

Parameters

Describe Metrics

Why is the metric a health metric?
How was it measured before?

1.

2.

3.

4.

5.

...

1

Level of Concern

Describe the threshold of concern

2

Source of Data

What is the data source?
How will you calculate the metrics?

Previous Average

What is the previous average for a defined period of time (e.g., 12 months)?

3

Metric Owner

Who is the owner for the metric?
